## Stirlings Golden Stage 5W-30 C4

### SYNTHETIC BASED LONGLIFE MOTOR OIL

Stirlings Golden Stage 5W-30 C4 is a synthetic based low SAPS motor oil for gasoline and diesel engines in passenger cars and light duty commercial vehicles. This oil can be applied for cars equipped with catalytic converters, turbo charged engines and for direct fuel injection systems.

Stirlings Golden Stage 5W-30 C4 offers an extremely high protection over prolonged drain intervals. Especially recommended for Euro-4 cars for which ACEA C4 is prescribed, to prevent soot filters from blocking.

Because of this, Stirlings Golden Stage 5W-30 C4 has low sulphated ash contents and also low levels of phosphor and sulphur (so called "low-SAPS" technology).

Stirlings Golden Stage 5W-30 C4 not only offers an extremely good wear protection but also protects against rust and oxidation, while special additives keep the engine clean from dirt, sludge and deposits during the sometimes extremely long drain intervals.

Stirlings Golden Stage 5W-30 C4 provides an extremely quick and stable lubricant film at the cold start and a high thermal stability under heavy duty operating conditions.

### Specifications

ACEA C3/C4  
RN 0720  
MB 229.51  
MB 226.51  
FIAT: 9.55535-S4

Color	Brown
Density at 15 °C	851 kg/m <sup>3</sup>
Viscosity 40 °C	69.1 mm <sup>2</sup> /s
Viscosity 100 °C	11.7 mm <sup>2</sup> /s
Viscosity Index	165
Viscosity CCS at -25 °C	6600 cP
Flash point COC	222 °C
Pour point	-45 °C
Total Base Number	7.2 mgKOH/g
Sulphated Ash	0.5 %

Available in 1, 4, 5, 20, 60, 200, 1000L
