

Golden Stage 0W-8 ECO

<u>Description</u>	Golden Stage 0W-8 Eco. A fuel economy motor oil, developed according the most recent technology, based on specially selected synthetic base oils and a well balanced choice of advanced additives to obtain the following properties: - a lower fuel consumption - a high and stable viscosity index - a good resistance against shearing - a very fast cold start, even at very low temperatures - a safe lubrication film at very high temperatures - a very good detergency and dispersion power - a very strong protection against wear, corrosion and foaming.																		
<u>Application</u>	A fuel-saving, specially formulated motor oil, suitable for certain petrol engines of (hybrid powered) passenger cars, mainly from Japanese manufacturers, which are equipped with the latest technology.																		
<u>Specifications</u>	JASO GLV-1
